KEY SKILLS

- **UI/UX Design**
  Mockuping | Prototyping | Atomic design | UI-kits | Components | Design systems
- **Web & Mobile Design**
  Responsive interfaces | Animations | States of elements | Micro-interactions
- **Tools**
  Figma | Framer | InVision | Pixso
  Adobe Suite
  Photoshop, Illustrator, After Effects
- **User Experience**
  User research | Journey mapping | Usability improvements
- **Additional knowledge**
  Layouting
  HTML, CSS, JS
  Frontend frameworks
  React, Vue
  Databases | SCRUM | Agile

SOFT SKILLS

- **Client communication**
- **Cross-functional collaboration**
- **Proactivity & initiative**
- **Adaptability**
- **Attention to detail**
- **Self-organization**
- **UX problem-solving**
- **Open-mindedness**
- **Multilingual communication**

LANGUAGES

- **Ukranian** - Native

CERTIFICATES

- UI/UX Design Essential 2022
- UI/UX Mobile App Design 2022
- Figma. Online store design 2022
- UI/UX Design Starter 2022

Frontend & other

- React Course 2024
- Angular 11 Essential 2022
- Partner: PCAP - Programming Essentials in Python 2020
- CCNAv7: Switching, Routing, and Wireless Essentials 2021

SUMMARY

Since 2017 (including freelance and personal projects), I've been designing digital products of various complexity and scale. My expertise covers the full cycle of UI/UX design: from research and UX flows to interactive prototypes and design systems.

- Skilled in Figma **(atomic design, UI Kits, components, prototypes)**
- Experienced in **CJM, User Flow, redesign & responsive web design**
- Knowledge of **iOS & Android guidelines, UX patterns, and layout principles**
- Additional expertise: **Adobe Illustrator, After Effects, Premiere Pro, motion design & 3D modeling**
- Background in frontend development **(HTML, CSS, JavaScript, React)** and understanding of database principles

Along the way, I've also explored **motion design, 3D**, and **video production**, which helps me bring ideas to life in dynamic and engaging ways.

👉 **I believe that** great products come from connecting design vision with technical understanding — and that's where I add value.

2019-2022
Donetsk National University
Bachelor's in Informatics & Computer Science

2015-2019
Donetsk Polytechnic College
Computer Systems Programming

COMMERCIAL WORK EXPERIENCE • 3 YEARS

UI/UX Designer & Fullstack Developer — Nov 2025 - Present

StworzEvent.pl • https://stworzevent.pl – SaaS project · Poland / Remote

- Built a SaaS platform for event management and ticket sales on the Polish market — from concept and design to MVP launch
- Designed the full UI/UX: event landing pages, organizer dashboard, mobile check-in flow
- Implemented multi-tenant architecture (Organizations + roles), Magic Link auth, real-time sales analytics
- Integrated Lemon Squeezy payment gateway with webhooks; automated ticket delivery and 24h reminders via Resend

Stack: Next.js 15, React, TypeScript, Prisma, PostgreSQL (Neon), Tailwind, shadcn/ui, Zod

UI/UX designer — 8 months • April 2025 - November 2025

VizoGEN Ltd. – AI startup (20 people) · Poland / Remote

- Designed website, service pages, and admin panel for an AI content generation product
- Built UI kit, design system, and brand identity from scratch
- Created interactive Figma prototype; worked with CJM and UX patterns
- Collaborated with devs using React, HTML, CSS stack

Break from professional work — ~3 years • April 2022 - March 2025

Relocation due to the war in Ukraine; work outside professional field during resettlement

Frontend developer — 9 months • March 2022 - November 2022

KMV Tour Ltd. – Travel agency (12 people) · Remote

- Built adaptive CRM system; improved customer interaction by 40%
- Developed responsive UI with Vue 3 & Bootstrap in a 6-person Agile team

Technical Support Engineer / Web Developer — 6 months • September 2021 - February 2022

DKT Ltd. - Telecommunications company

- Redesigned company website — traffic up 20%; built Vue 3 UI with API integration

UI/UX designer — 1 year 1 month • July 2020 - August 2021

ITD company - Web design studio (a team of 6 people)

- Layouts, UI kits, prototypes for startups and enterprises
- Designed a tobacco factory website showcased at WT Middle East Expo in Dubai
- Brand identity: logos, corporate style, ad materials
